## Profile

I'm a fifth year Computer Science student at the University of New South Wales. I'm currently completing my honours thesis at NICTA, where I'm learning about operating systems and writing low-level systems code. My major hobby is programming; I spend lots of my spare time writing programs or learning new techniques.

---

## Skills

### Systems Programming

- Experience working with a number of different microprocessors and device controllers
- Capable of reading and understanding programming manuals for new hardware
- Experience writing drivers, including a driver for an RFID controller, and a userspace timer driver
- Completed UNSW's "Advanced Operating Systems" course, which involved implementing many operating system features from scratch
- Wrote a multi threading library for an arduino

### Web Development

- I spend a lot of my spare time working on web apps or HTML5 graphical demos
- Competent in the use of many backend web languages and frameworks as well as a great deal of javascript experience
- Some of my personal projects include an 3D engine, an IOU calculator, a 4D graphical demo, an isometric game engine, and a code generator for a static html blog.

### Software Engineering Practices

- I've worked with the git, mercurial and SVN version control systems
- The largest codebase I've worked on to date was UNSW's robotic soccer team (rUNSWift)

### Mobile App Development

- Written apps for Android and Windows Phone
- I can quickly learn new APIs.

---

## Work Experience

- (2013 - present) Freelance web development (mainly Wordpress)
- (2011 - 2013) Research Assistant at NICTA working on an electronics project to automate software testing
- (2011, 2013) Tutor for the School of Computer Science and Engineering at the University of New South Wales
- (2008 - 2009) IT Technician at local computer store

## **Achievements**

### **Robocup**

- Developed a behaviour framework for UNSW's robotic soccer team
- Travelled to Eindhoven, The Netherlands to compete in the 2013 Robocup, where we placed 4th in the world

### **Student Exchange**

- Took part in a student exchange to the University of Toronto in 2012

---

## **Extra Curricular and Volunteer Work**

### **UNSW Revues**

- Involved in several theatrical societies at UNSW
- Currently head of the website team of "CSE Revue" - a comedy show run by UNSW computing students
- President of CSE Revue in 2013, and was one of the producers of the show
- Previously involved in the cast, tech crew, videos, website and executive teams for several different shows on campus

---

### **Volunteering for the School of Computer Science and Engineering**

- Help run the CSE stall at UNSW open days to attract new students
- Volunteer as a Mentor for CSE's Mentor Program which allocates first year students with older students to introduce them to UNSW
- Camp Leader for the CSE First Year Camp which is an event held early in the year to allow first year computing students to meet their classmates
